What is it? - So much of what we do in sewing requires precision ironing. Careful pressing equals flat hems and seams. However, tiny hems, seams, points, appliqué and delicate creative shapes allow little space for stabilizing our projects while we press. The problem arises when we get that hot iron in close proximity to our cool fingers. Too close and it's sailor talk and nobody wants that. So how do we accommodate the creative demands of our project while protecting our fingers? Simple, put Clover's Iron Finger to work. It's a modern tool designed for modern sewing and craft techniques and applications. Designed with emerging requirements in mind, this is truly a multifunction tool. Broom handles, wooden spoon handles, spatulas, etc., have all been used and advocated by the creatively innovative. Clover's Iron Finger combines the benefits of all of them into one tool and coated it with heat resistant silicon so nobody gets burned. The round handle is soft and easy to grip without slipping and the multi-shaped tip allows you to hold your fabric or craft surfaces securely while you press them.

What does it do? - The Iron Finger allows you to hold, shape and press any number of materials with efficiency and safety.

- Most notably the Iron Finger can hold your fabric and allow you to press right up to it without concern for heat damage. The finest, most detailed ironing applications are now easy.

- The spatula tip is a great substitute for finger pressing. It's narrow enough to get into the tightest spaces and has just enough flexibility to smooth your fabric. You can even roll the Iron Finger across your fabric to press seams open..

Item No. 7802

Iron Finger Item No. 7802

- Need to press a narrow seam without creasing the edges of a narrow tube shape? Easy. Simply slide the Iron Finger into the tube shape lined up with the seam and iron away. Flat seam, no creases. Don't want seam imprints ironed through your fabric, same process. Again, easy.

- The Iron Finger can also be used to turn or point fabric that is loosely woven or knitted. The broad point or spatula shape manipulates the fabric but doesn't poke through.

How do I promote it? - Clover's Iron Finger performs several functions that everyone has a "work around" for. How much easier is it to have just one tool that does it all? Especially one that doesn't get hot and burn your fingers. This is a great sewing and craft tool that people just need to know about to know they need one. Leave them laying around in your shop, promote them at guild meetings and use them in your classes. Once your friends see them they'll all want one. And anyone who's been burned by an iron will really want one.

Steve Butler has expertise in the sewing and needlecraft industry. Co-founder of Superior Threads. Steve has taught numerous classes at all major sewing machine conventions, regional trade shows, International Quilt Market, various machine embroidery venues and has been a four time repeat guest on Martha Pullen's popular PBS series, "Martha's Sewing Room".

Now you're probably thinking, Great! How do I sign up? It's easy, sign up through our website: www.clover-usa.com or text "CLOVERUSA" to "22828" to get started.

Tool School Curriculum:

November :

3th: Fabric Folding Pen

17th: Point to Point Turner

January:

6th: Mini Iron II

20th: Hold It Precision Stiletto

December:

1st: Carefree Curves

15th: Iron Finger

Iron Finger

One of the most frustrating moments in pressing is not being able to get into a seam to iron it properly. Whether the project is a garment, hand bag, quilt, or doll clothes, standard boards do not allow the opportunity to isolate small details or seams. The Iron Finger is the solution to all these problems!

Item No. 7802

Mini Iron II

Item No. 9109

Hold it Precision Stiletto

Item No. 7807

Item No.	Description	UPC	Std Pk	Case Pk	MSRP	Qty	Subtotal
7802	Iron Finger	051221778025	3	48	\$15.75		
7807	Hold it Precision Stiletto	051221778070	3	144	\$12.95		
9101	Mini Iron II The Adapter Set	051221003110	3	12	\$67.95		
9578	Trace 'N Create Carefree Curves	051221795787	3	48	\$23.95
